

**Before you apply**

- This application is for timber clearing for land use and/or removal of forest resources.
- If you wish to clear forest resources under the authority of a Land Use Permit (LUP) you **may not** require a Forest Resources Permit (FRP).
- Review your LUP for terms and conditions regarding the harvest and disposal of forest resources. If you are uncertain whether you require a FRP contact the Forest Management Branch.
- Yukon government entities may have issued FRPs that authorize certain activities. Prior to application verify that the activity you are proposing is not already included in a current authorization.
- For further information see [Fact Sheet 6 – Incidental harvesting of timber](#).
- The Forest Management branch requires an estimate of the amount **merchantable timber** proposed for harvest. A merchantable log is 2.5 meters in length, is a minimum of 12.5 cm in diameter at the butt end, 10 cm in diameter at the top end, and contains 50% sound wood. The Forest Management Branch may be able assist in estimating this volume.

**For more information contact the Forest Management Branch at 867-456-3999 or, toll-free, 1-800-661-0408 ext. 3999.**
